Grading and feedback: group X

Evaluation Category	Evaluation Parameter	Strong points	Weak points	Grade
Usefulness	Interesting goal			10/10
	Meaningful Insights on the data			10/10
	Notebook- design, readability, presentation			10/10
	Visualizations (in the notebook) - usefulness, readability.			10/10
Data Model	Preprocessing (cleaning, missing data)			10/10
	Data representation (feature selection)			10/10
Algorithms and methods	Algorithm choices			10/10
	Parameters tuning			10/10
Evaluation techniques	Results evaluation process			10/10
Documentation	Readability, comprehensiveness, conciseness			10/10
Overall				100/100
