

Grading and feedback: Team X

Members:

Evaluation Category	Evaluation Parameter	Strong points	Weak points	Grade
Presentations	Requirements fulfilment	Full mark		15/15
Point of Focus	Complexity, quality of solution of the "point of focus" decided by the team			15/15
Project Phases	Data Exploration and visualization			10/10
	Feature extraction/engineering			15/15
	ML Algorithms used: adequacy, parameters tuning			10/10
Data Model	Statistical evaluation: comprehensiveness and adequacy of measures			5/5
	Insights and applications			5/5
Notebook	Readability, comprehensiveness, conciseness			10/10
Documentation	Readability, comprehensiveness, conciseness, related work, code-readability			15/15
Overall				100/100
